FOR IMMEDIATE RELEASE

Emergency Lane Closure on State Route 24 for PGE Storm-related Work in Orinda

Contra Costa County, Calif. – Caltrans District 4 is alerting motorists to a lane closure on State Route 24 (SR-24) eastbound for PGE emergency work related to a transmission tower threatened by a mudslide. The utility is taking steps to shore up the tower. Helicopters are being used for the work and may be observed in the vicinity. The length of time needed for the work and associated lane closure is not known at this time.

The PGE work is prompting a lane reduction on SR-24 EB just east of the Caldecott Tunnel, between Wilder Road and Moraga Way / Camino Pablo in Orinda in Contra Costa County. **Motorists should anticipate delays, seek alternate routes, if possible, and drive with caution through the work zone.**
